The Architecture scene in Bangladesh has been thriving with a new energy over the past 3 decades or so. Bangladeshi architects have been experimenting with form, material, aesthetics and most importantly, the idea of how architecture relates to history, society and the land.

Architecture

Commencing operations from 1977, the flagship entity of the group Index Architects Ltd. is involved in consultancy and architectural design, project planning and detail engineering. The firm plays a pivotal role in commercial and residential property projects undertaken by the group. Its unique value propositions are innovation, creativity and professionalism.

One of the well known facts about IAL is that the company provides consultancy and other services to overseas clients. This remarkable feat was possible to achieve because of the vigor that has propelled the company to go beyond borders and emerge as a pathfinder in the firmament of architecture and urban planning in nations who lack expertise in those areas. Till date, it has successfully completed more than 300 projects in Bangladesh and abroad.

Real Estate and Construction

Real estate in Bangladesh has developed dramatically in recent years due to the growing economy and growing purchasing power of the middle class. This resulted in construction boom and increasing number of high-rise buildings in the major urban centers of the country. Index group realized a new wave of construction project management that provided the real estate sector a much-needed facelift. The launching of Real Estate Division of the company took place in 1990. The journey has so far been a wonderful one. Over the time, the company has achieved excellence in the overall planning and implementing attractive ranges of Real Estate projects by introducing the “Smart Building” concept.

Index Construction Ltd. gave a new dimension to provide leverage for Index Architects Ltd. after a successful run of two decades. Incorporated in 1999, it specializes in real estate development and turnkey solutions for residential, commercial and industrial projects. Index Construction has established itself as one of the most reputed building and construction firms in the country and has successfully undertaken and completed numerous projects.

Agriculture dominates both the landscape and the economy of Bangladesh. The country has remained largely agricultural, with nearly half the population employed in this sector. The country has invested deeply in agro-processing and livestock development with immense success that is being followed by many other neighboring countries. X Index Companies is part of that journey.

AGRO INDUSTRY

Index Agro Industries Ltd (Feed Mill Division)
